

# Ventry.

Monetize your IP. Your Way.

# What is Ventry?

A WEB3 platform where creators build Vaults:

- Fans subscribe to unlock content
- Marketers license IP for commercial use

Built on Story Protocol.

Powered by Stripe, NFTs, and onchain licensing.

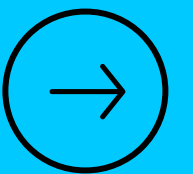

# Why Now?

Web2 limits creators.

Ventry opens IP to fan & brand  
monetization onchain.

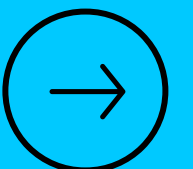

# Target Users

- Comic creators
- NFT artists
- Meme designers
- Indie game studios
- Web3 marketers
- Design Studios
- Digital Marketing Agencies

# Revenue Model

Two revenue models:

1. Subscription Vaults (Stripe, USDC, NFTs)
2. Commercial Licensing Vaults (fixed fee or usage-based)

# How Ventry Works

Each creator gets a Vault:

- Upload IP (art, stories, music)
- Choose license options (view, remix, commercial)
- Offer subscriptions + license rights

Revenue Model:

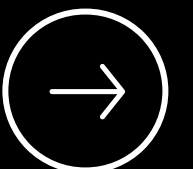

- Fans: 5–10/mo × 100subs = 500 – 1,000/mo per creator
- Brands: \$100–500/IP license = high-margin B2B sales
- Platform takes 10–15% from all flows

# Future Features

- “Sponsor this Vault” for project-based funding
- Superfluid integration for streaming payments
- On-chain metrics via ad platforms APIs & usage verification
- In-Vaults staking & revenue sharing
